

We are a young and innovative medical technology company with the headquarter in Austria. With our products we have an international presence. Cooperations open up excellent prospects. Short decision paths and flat hierarchies offer much creative freedom for a committed person. Within our motivated and experienced team, we know how to use ideas and synergies for mutual success. For further information to our company and our products please visit our homepage [www.interventional-systems.com](http://www.interventional-systems.com)

To support our team, we are currently looking for a

## Quality Engineer

### Your main task:

- Supporting an innovative team to enter new products into the national and international market
- Maintenance and progression of the QM-system according to EN ISO 13485
- Coordination, preparation and execution from internal audits according to ISO 13485
- Preparation and participation of external audits
- Ensuring of all quality goals
- Drafting of KPIs and support in preparation for management reviews
- Support in product development and technical documentation

### Your profile:

- Completed scientific or technical studies or an equivalent education
- Experience in quality management (ideally EN ISO 13485)
- Knowledge of applicable European and national regulations in the field of medical technology (MDD, MDR, MPG, EN ISO 13485, EN ISO 14971, FDA) desirable
- Internal auditor-training is desired, but not necessary
- Very good German and English skills
- High capacity of team, organization and communication skills
- Well structured, reliable and independent way of working

**We offer to you:**

- An attractive working place and flat hierarchies with direct contact
- Exciting tasks in medical technology with the aim of better patient care
- Perspectives in a growing, interdisciplinary and international company
- Pleasant working atmosphere in a young, creative and dynamic team
- A corporate culture that promotes development, commitment and enthusiasm
- A high recreational value (mountains) in summer and in winter in Wattens and Kitzbühel

Your working place is in Ulrichstr. 40, 86836 Untermeitingen (DE), with good traffic connection (Bahn, B17) in the direction Augsburg and Munich.

Please send us a meaningful application with your references to [bewerbung@interventional-systems.com](mailto:bewerbung@interventional-systems.com). Please give your earliest starting date and your salary requirement.

iSYS Medizintechnik GmbH, Bergwerksweg 21, 6370 Kitzbühel / Austria
