

We are a young and innovative medical technology company with the headquarter in Austria. With our products we have an international presence. Corporations open up excellent prospects. Short decision paths and flat hierarchies offer much creative freedom for a committed person. Within our motivated and experienced team, we know how to use ideas and synergies for mutual success. For further information to our company and our products please visit our website www.interventional-systems.com

To support our team, we are currently looking for an

Junior SQA-Engineer

Your main task:

- Monitoring suppliers for our products incl. complaint management
- Processing and release of first sampling from our suppliers (installation samples, test of function, change and deviation coordination)
- Supplier coordination of new revision parts and execution of change projects to suppliers
- Execution of supplier audits and participation in selecting new suppliers
- Supporting in product development process, if required

Your profile:

- Completed scientific or technical studies or an equivalent education, e.g. medical technology, machine construction, electrical engineering or mechatronics
- Initial experience in quality assurance of medical products are desirable
- Initial experience of QM-systems, knowledge of the ISO 13485 standard is an advantage
- Technical knowledge for product development and – production in a regulatory field
- Structured, goal-oriented and proactive way of working, pragmatism ("getting things done" - mentality) with a constant eye for essential things
- Social skills, communication and team skills
- Safe handling of IT, especially with MS Office applications

- Very good german language skills
- Openness to work in an international environment with good english skills
- High load capacity, flexibility and endurance

We offer to you:

- An attractive workplace and flat hierarchies with direct contact
- Exciting tasks in medical technology with the aim of better patient care
- Perspectives in a growing, interdisciplinary and international company
- Pleasant work atmosphere in a young, creative and dynamic team
- A corporate culture that promotes and rewarded development, commitment and enthusiasm
- A high recreational value (mountains) in summer and in winter in Wattens and Kitzbühel

Your working place is in Ulrichstr. 40, 86836 Untermeitingen (DE), with good traffic connection (Bahn, B17) in the direction Augsburg and Munich.
